BancCard Financial Services, Inc
2855 Anthony Lane S, Suite 130
Minneapolis, MN 55418

Dear Mr. McConville,

I am writing you today to give you recommendation for your services. We used your Event Payment Services for our annual Wine Event and Auction on August 2, 2007. And it was such a pleasure.

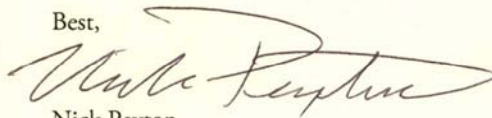

The interface between Auction Tracker and the ePSPay credit card system was straightforward and easy to understand. Before, we would have to hand key all the credit card numbers through our own terminals but now with the ePSPay system, the numbers are automatically stored in the terminals. Thus eliminating the need to hand enter hundreds of credit card numbers.

Using this system also updates Auction Tracker automatically. This is a blessing because we can print invoices for the guests that night and they can walk away with a receipt or an invoice to pay.

The best part of the Event Payment Services team is their dedication to customer service. We had a slight problem on a Friday night (Pacific Time) and a team member called me back that night with detailed instructions to answer my question.

I would recommend this service to anyone planning an event.

Best,

Nick Peyton
Development Coordinator
