Dear Paul:

Arthur King

Our recent auction and dinner would not have been as easy to manage, or as successful without the professional service provided by you and your staff, both before and after the event. Thanks for being there to answer questions and make sure our credit card processing was handled as smoothly as possible.

It was very helpful to know you were willing and able to work in conjunction with Auction Tracker and their staff to resolve any questions. I'm looking forward to working with you again for our next event and to explore opportunities to improve our fundraising through the use of on-line credit processing.
